IWorld offers iStuff Domino 2.1 iPod Speaker System

"My name is Domino. I am a speaker system"

by Amy-Mae Elliott published on 8 October 2007

The iStuff Domino Speaker is the latest iPod speaker system to join the overcrowded market here in the UK.

Offering 30 watts output, the iStuff Domino is a 2.1 speaker system with a built-in amp and power supply, volume control, S-video output, USB sync connector, input mode select, universal iPod dock adapters, auxiliary stereo input and a main RCA stereo input.

The iStuff Domino 2.1 iPod Speaker System claims to deliver an incredible soundscape thanks to a 2-inch wide-range driver and a 3-inch magnetically shielded fiberglass cone subwoofer.

Available now for one hundred British pounds.
