Exspect announces customisable MiBag

It's your bag, baby

by Amy-Mae Elliott published on 1 November 2007

Exspect has launched the MiBag that they describe as a revolutionary new and ultra stylish way to carry your notebook computer, with your style.

Available in 13-inch and 17-inch formats, the MiBag is a black protective bag with a twist.

With a on/off zip mechanism, users can transform their classic black notebook case into a more individual and stylish look, simply by adding one of MiBag's fascia designs to the front of the bag.

So, you could have several different "looks" for the same bag, maybe one for work and one for play.

A "classic" messenger bag for notebook computers, the removable laptop sleeve provides notebooks extra protection while there's also storage capabilities for a mouse, cables and other notebook related items.

It can also be used as a stand alone carry case thanks to its retractable carry handles that can disappear out of sight into the bag or can be used with the shoulder strap attached to the messenger bag.

The MiBag costs from £39.99 with the MiBag interchangeable fascias starting at £9.99.
