## Goodmans GMP34G6 4GB MP3 player launches

### Mini digi-jukebox

by Amy-Mae Elliott published on 22 November 2007

Goodmans has launched the GMP34G6, a mini 4GB MP3 player complete with video playback.

The player is slim, compact and black with a 1.8-inch colour screen and joy-pad controls.

It has 4GB of storage - that Goodmans says gives you room for up to 1000 MP3 or 2000 WMA tracks - and 3 hours of video playback. It's also MP3/WMA/MTV/JPEG compatible.

The voice record function means you can use the player like a dictaphone. You can also store documents on it, once you convert them to a .txt file.

The GMP34G6 also has a micro SD Card slot that allowing you to transport music from your phone to your player and vice versa.

Available now, it's £44.99 from Argos.

Features include:

- 1.8-inch 262K TFT display
- Audio format: MP3, WMA
- Support MTV playback, conversion software included
- Auto resume - plays back from the place you turned the player off from
- Photo playback: JPG, BMP
- Support DRM 10
- Stereo Earphone
- Support Micro SD/T-Flash Memory Card, up to 2G

Digital voice recording by ADPCM format  
ID3 tag display & Lyric synchronization
