Praise be! It is the Virgin Mary flash drive

"Oh, Maria. Keep my data safe"

by Amy-Mae Elliott published on 30 November 2007

This 512MB flash drive is shaped after the Virgin Mary and is enshrined in holy Plexiglas.

When connected, the red LED heart beats and her halo is inscribed with "Oh, Maria. Keep my data safe".

Just 69 euros for the peace of mind only the truly devout enjoy...
