LG Chocolate launches in silver and lilac

More flavours available

by Amy-Mae Elliott published on 10 December 2007

LG has introduced two new colours of their ever-popular touch-sensitive Chocolate handset just in time for Christmas wish-lists.

The decidedly girlfriend-friendly new tones are a rather sparkly silver and the colour du jour lilac, that join the current white and black offerings.

The LG Chocolate "silver" is available exclusively through Phones4U on PAYG and the LG Chocolate "lilac" is available exclusively through Carphone Warehouse on both PAYG and contract.
