## Platinum iPhone eclipses gold versions

### Pt-plastered Jesus-phone

by Amy-Mae Elliott published on 12 December 2007

If the gold-plated iPhones and iPods on offer just aren't exclusive, or expensive, enough for you, the Power of Platinum collection that includes a limited run of 250 platinum-coated iPhones retailing for £1099.95 each might just do it.

As well as Apple's mobile, the collection, available from January 2008, will include 50 Bang & Olufsen Beocom 4s for £999.95 each, while the 3rd gen iPod nano gets smothered in the stuff too for just £399.95.
