Brando launches USB oil burner, light, radio and speaker

Who said convergence is dead?

by Amy-Mae Elliott published on 29 January 2008

The "USB Aroma Radio + Speaker" is the kind of product that only Brando can come up with.

It's a USB-powered oil burner that can glow in - count 'em - seven differing LED shades, can tune into AM/FM radio and act as a speaker for your MP3 player.

Yours for \$30.
