Marks and Sparks launch bedstead with built-in TV

Comes with 26-inch or 32-inch models

by Stuart Miles published on 11 February 2008

UK high street retailer Marks & Spencer has entered the world of bling bedsteads with the Autograph Monroe Bedstead.

The bedstead, which comes complete with TV option, is a real leather bedstead that holds a 26-inch or 32-inch flat screen TV.

Marks & Spencer say that the television will be installed on delivery, however those not looking to pimp their bedstead can opt to have it without the television.
