## Ziszor offers one-handed paper shredder

Office gadget for the appendage-challenged?

by Amy-Mae Elliott published on 15 February 2008

The "Ziszor!" is a hand-held paper shredder that measures 10 inches long, weighs less than one-and-a-half pounds, and can be used one-handed.

Although one-handed use wasn't something we thought we'd prize in a paper-destroying gadget, this looks quite tidy for its \$50 price tag.
