Orange offers free iPod touch with business accounts

8GB iFreebie

by Amy-Mae Elliott published on 18 February 2008

Orange Business Services is offering a free 8GB Apple iPod touch to customers who sign up to 18 month business tariffs.

Customers who sign up in selected Orange shops to Orange Solo, Orange Venture or Orange Momentum business tariffs in February will walk out with a new iPod touch.

"The work/life blur often means doing work in your free time. We want to redress the balance and encourage our customers to take time out of their working day for themselves and the iPod touch is a great me-time device with which to do that", said Martin Lyne, director of Small Business, Orange UK.

The latest deal is available in selected Orange shops while stocks last and is for Solo, Venture or Momentum 18 month business plans of £35 and above. Offer only available to single subscribers or leaders on sharer plans. Existing customers ask instore. Subject to availability, while stocks last, etc.
