Magnetic USB hub launches

And you thought computers and magnets didn't mix...

by Amy-Mae Elliott published on 2 April 2008

The USB magnetic hub can be mounted anywhere metallic thanks to the powerful built-in magnets.

It offers four USB ports, including one "easy access" one on the top designed 'specially for flash drives or dongles.

Measuring 50 x 50 x 22mm and weighing in at 50 grams, the hub is \$12, available now.
