VIDEO: Palm Centro mobile phone

Quick review of the new smartphone

by Stuart Miles published on 7 April 2008

Available in "black onyx" in the UK, the smartphone will cost £199 or Å299.

Key features (in Palm's phrasing):

- ï All-in-one phone and messaging device
- ï Small and light, weighing just over 4oz.
- ï Full keyboard and a colour touchscreen
- ï Text messaging with a chat-style view
- ï Ability to store names, numbers, appointments, notes and to-dos
- ï Access to wireless email accounts, such as Gmail and Yahoo
- ï Web browsing capabilities
- ï Google Maps for maps and directions
- ï 1.3-megapixel digital camera with video capture
- ï Easy-to-use Palm OS software
- ï Ability to play music with PocketTunes
- ï Ability to create, edit and view native Word and Excel compatible files
- ï Ability to view native PowerPoint and PDF documents
- ï Microsoft Direct Push Technology for delivery of Outlook email, as well as personal email, such as Gmail and Yahoo
- ï Bluetooth 1.2 for connecting wirelessly with compatible headsets and car kits
- ï 64MB dedicated user storage with support for up to 4GB microSD cards
- ï Thousands of add-on applications available
- ï Ability to use Centro as a modem for connecting a laptop to the Internet via Bluetooth, so users can stay connected anywhere within wireless coverage
