Do you love your Wii Mii creation? Well, now you can get your cartoon-like avatar turned into a real-life "sculpture" thanks to the innovative services of Mii Sculptures.

The service takes around three to four weeks as each little 4-inch Mii is handmade and will cost from \$79 - but with no additional shipping charge for UK customers.

As well as an individual service, Mii Sculptures offers a wedding cake topper option where you and your prospective other can be Mii-i-fied for \$140.
