## Smoy iPod cases to frame your pictures

Keep your loved ones with you ...  
awwwwwww!

by Katie Scott published on 30 April 2008

Some things are so bad, that they actually become good.

And that's the case (ha ha) with this latest iPod accessory from Smoy.

The new iPod case comes complete with a photo frame so you can gaze dreamily at a snap of your loved one whilst listening to "your" song.

The Smoy iPod case is made of brown vinyl and the window frame size is 15/16 inch in width by 7/8 inch in height.

The manufacturer adds that the vinyl covering is thin enough to operate your iPod without having to remove it from the case.

The iPod case is priced \$28 - no news on UK availability as yet.
