Digital photo frame duo from Kodak

Available from mid-June

by Katie Scott published on 13 May 2008

Introducing the SV1011 and SV710 digital photo frames from Kodak.

The SV1011 comes with a 10 inch screen while the SV710 is smaller at 7 inch.

Both features a widescreen LCD in 16:9 ratio, as well as 128MB of internal memory.

They also support SD/MMC/CF/xDPC/MemoryStick/ MemoryStick Pro memory cards, and can read an array of image files, including JPEGs, BMPs and PNG format, as well as MP3 files.

And they'll be available from the middle of next month so just in time to show off your pics from your summer of fun.
