Minimalist wooden iPod speakers launch

Branch out

by Amy-Mae Elliott published on 25 June 2008

These cool STACK iPod speakers have just seen a launch from MonoDO in Japan.

Available in "Scandinavian Birch" and "American Walnut" they are designed for the iPod classic and nano.

Offering 2 x 1 watt output they can be powered by AC or hook-up to your PC via USB and offer iPod syncing too.

With prices from around £45, sadly there's no news on a UK launch.
