O2 punts pedal power with help from Dan Le Sac

Thou shalt always have mobile phone power

by Amy-Mae Elliott published on 25 June 2008

Orange may be showing a kinetic dance charger at Glastonbury, but O2's getting in on the eco act too at the O2 Wireless event with some motion-powered mobile charging of its own.

The operator will demo specially created bikes that, via pedal power, will juice up mobile phones for festival goers.

And, in a somewhat unlikely corporate team-up, Scroobius Pip of "Dan Le Sac vs Scroobius Pip" will be having a go on said stationery cycle.
