IBeer iPhone app for the truly bored

Drink and dial

by Katie Scott published on 7 July 2008

This is for all of those who've had a boozy weekend and can't bear the idea of a whole Monday, sitting working, and not having a cold brew in their hand.

All you have to do is whip out your iPhone, get the iBeer app, and then the amber nectar will fill up your screen and you can tip your phone to your lips and pretend to drink.

Similarly useless but sure to go down well with the boys is iAmanda - a scantily clad female, who will appear on your iPhone screen, and give it a good scrub with water and a rag.

iAmanda costs \$4.99 and iBeer is just \$2.99.
