BlackBerry Javelin spy shots leaked

Insider pics

by Amy-Mae Elliott published on 14 July 2008

Apparently snapped by a RIM insider, some new BlackBerry "Javelin" pics have made their way onto the interweb.

Said to be a 3G-less Bold, the Javelin is slated for release next year and will offer Wi-Fi, 3.2MP camera, GPS and run the 4.6 OS.

We'll bring you more on this, and other BlackBerry-flavoured bits as we get them...
