Photo news and reviews channel changes to "Cameras"

Please update your feeds

by Stuart Miles published on 15 July 2008

From today the "Photo" news and reviews section on Pocket-lint has been renamed "Cameras".

If you are following the Photo channel on one of our many RSS feeds, have alerts set up, or have personalised your homepage to show Photo news and reviews you will need to change your settings to Cameras from now on.

Why the change? We've found that the term Photo wasn't clear enough to our readers.

In addition, we've now broken out "Printers" into a separate channel so you can monitor that separately, however, the camera channel will still feature all the latest news and review on digital compact cameras, DSLR cameras, camcorders and the accessories that go with them.

If you have any problems please contact us via the feedback form and we'll be happy to help.
