Megawhat News - Dell to launch iPod rival

Today's top headlines in a video report

by Katie Scott published on 31 July 2008

Want to know the latest news but don't have time to read the stories we've written?

Well why not take a peek at the top stories on video.

In the headlines: Dell to launch iPod rival; news of the world's cheapest laptop; Garmin nuvifone delayed until next year; Pioneer brings its LCD TVs to the UK; and Scrabulous removed from Facebook.

Hit the play arrow above to watch it now, or follow the link below to view the vid on our lovely Megawhat website, where you can watch all of the daily news, and so much more, full screen.
