## VIDEO OF THE DAY - Mossberg does Flock

The Wall Street Journal takes a look at Flock

by Ian Hughes published on 14 August 2008

If you've seen our Website of the Day, Flock.com, here, as promised, is the video review from The Wall Street Journal's Walt Mossberg.

He's not a patch on our own very lovely Katie Scott, but he does a pretty good job of running through the browser's pros and cons.

If you've seen a video online that you want to tell us about email us via the feedback form.
