Mighty Multifunctional Mouse Pad

USB hub, speaker and microphone -
what more could you want?

by Katie Scott published on 18 August 2008

Gone are the days of the humble mousemat with a cheesy pic of your loved one emblazoned on it so you could wheel your mouse all over their face.

Oh no - the latest mouse mat is multifunctional with a four-port USB 2.0 hub, integrated stereo speakers and a built-in microphone with on/off switch.

You also get built-in audio in and out.

The Zonet Multimedia Mouse Pad is \$20.
