## VIDEO: Sony Cyber-shot T500

IFA 2008: Quick hands on at the show

by Stuart Miles published on 29 August 2008

Sony has launched the Cyber-shot DSC-T500, a 10-megapixel camera that offers 720p movie recording at 30 frames per second in the MPEG4 H.264 codec.

We managed to get a quick hands on of the new model on the stand at IFA in Berlin.

Watch the video to see what we thought.
