LG DVS450H DVD player launches

IFA 2008: DivX certified "floating" effort

by Amy-Mae Elliott published on 30 August 2008

LG has launched the DivX certified DVS450H DVD player that is capable of playing high-definition DivX digital content.

With this device, consumers can watch high-definition DivX videos burned to DVD's or stored on USB flash drives.

As well as the DivX support, that's being called the the first from a "major" manufacturer, the DVS450H boasts stylish looks. The sleek-looking player can be wall-mounted with its "floating" design.

Other spec, as well as info about pricing and availability, is a little thin on the ground, but we'll bring you more when we have it.
