VIDEO: Hands-on with the Sanyo Xacti HD1010i camcorder

High def, face chaser

by Katie Scott published on 1 October 2008

Sanyo's Full HD Xacti, the HD1010, is described as an ultra-compact, full 1920 x 1080 (1080i) high-definition digital camcorder.

It boasts "Face Chaser" face detection technology for both video and stills, plus a new slow-motion video mode and 7 frames-per-second sequential shooting for action photography.

And it takes 4-megapixel digital still images and records video and stills to SD memory cards or SDHC cards, supporting up to 32GB.

Here it is in action...
