Sanyo HD1010 camcorder on sale in UK

£499 for 1080i-capable shooter

by Amy-Mae Elliott published on 2 October 2008

Sanyo's latest digital camcorder, the HD1010, is now on sale in the UK. The HD1010 captures full 1080i high-definition video (1920 x 1080) at 60fps.

The ultra compact, ergonomic HD1010 features face-chaser technology for video and stills, a slow-mo video mode and seven frames per second sequential shooting for "superb" action photography.

The camcorder, that records to SD or SDHC cards up to 32GB, also features image stabilisation, gets a 2.7-inch widescreen display and a 10x optical zoom lens.

Described as simple-to-use, the HD1010 can snap 4-megapixel digital still images while the video it records is in the MPEG4 AVC/H.264 video compression.

It's on sale now for a shade under £500.
