HANNSpree HT09 28-inch LCD TV launches

HD goes tiny

by Amy-Mae Elliott published on 6 October 2008

HANNSpree has launched the HT09, a 28-inch widescreen, full HD LCD television.

The HT09 features a full HD 1920 x 1200 resolution, a 3ms response rate and two built-in 5 watt speakers.

Other specs include 500cdm2 brightness, an 800:1 contract ratio and viewing angles of 160 degrees.

Connectivity-wise, the new HT09 gets two HDMI ports and two Scart inputs as well as component, composite and VGA.

Described as having a "simple yet chic design", the TV can be VESA wall-mounted or used on its stand.

Complete with remote control, the HANNSpree HT09 is available to buy now at £279.99 from www.misco.co.uk.
