## 103-inch plasma which lowers from your ceiling

### Movie magic

by Katie Scott published on 13 October 2008

Press a button and this huge, 103-inch plasma screen will lower slowly down from the ceiling and then can be rotated to be best viewed from whenever you're sitting.

You just need a house big enough for it.

Price on application from Media Motion.

Hit the arrow button above to see it in action.
