Plantronics makes £50k headset

Discovery 925 Jewel gets made over with diamonds

by Amy-Mae Elliott published on 28 October 2008

Plantronics has showcased its one of a kind, 18k gold, diamond and pearl headset, to celebs backstage at the MOBO awards in London.

The Discovery 925 Jewel, described as a "fusion of technology and fashion" has been made over by designer Phoebe Coleman, who apparently drew her inspiration from vintage lace.

The Discovery 925 Jewel has been valued at £50,000. It is 18 karat gold and has 40 diamonds and 31 natural pearls.
