## Ferrari gets built-in iPod touch

Scuderia Spider 16M offers optional dash dock

by Amy-Mae Elliott published on 10 November 2008

Ferrari is to build 499 limited edition Scuderia Spider 16Ms with the option to have an iPod touch dock in the centre of the dashboard. The 16GB touch will get Ferrari themes, images and sounds. Despite Ferrari charging \$277,000 for the motor, it seems the audio add-on will be priced as an extra.
