## Saitek goes girly with new keyboard combos

Matching mice, mats, keyboards and USB hubs

by Katie Scott published on 10 November 2008

Say you're a girly girl and want your desk to look as pretty as the rest of your room.

Why not opt for these colour co-ordinated peripherals from Saitek.

The Expressions range includes matching 800dpi mice, mats, keyboards and USB hubs.

There are eight hip designs to choose from.

The Expressions site also offers matching downloadable wallpapers to complete the set.

There's no word on pricing as yet though.
