Mozilla releases "Fashion Your Firefox"

Web apps to customise your browser

by Amy-Mae Elliott published on 19 November 2008

Mozilla has released "Fashion Your Firefox", a new web application that lets Firefox users customise their browser based on their interests and online activities.

Fashion Your Firefox presents add-ons in activity-based categories that Mozilla says makes them easy to find and install.

Categories in Fashion Your Firefox include "Shutterbug" that lets users view and share pictures and videos online, "Rock Star" for listening to music while online, "News Junkie" for the most up-to-date news and weather, as well as "Shopaholic" that flags up online deals.

There's also the "Digital Pack Rat" add-on to keep track of favourite sites, bookmarks and blogs, "Social Butterfly" that allows users to share, bookmark, and e-mail web pages via an array of social networking and bookmarking sites, "Finder and Seeker" that claims to find and make information on the web more relevant as well as "Decorator" offering browser themes and "Executive Assistant" to help organise online activities.
