Creative launches cow-shaped Zen Moo

Really

by Amy-Mae Elliott published on 21 November 2008

Aimed at kiddies, the Creative Zen Moo is a redux of the Stone, but with a bovine twist. No pricing has been revealed yet for its Chinese launch, but we'd wager it won't be too beefed up with that young target audience. Hopefully just an aside for Creative, rather than a new direction, we prefer their usual MP3 players to these novelty moo-sic offerings.
