Pocket-lint launches "compare prices" section

SITE NEWS: Let us help you find the best deals on the web

by Stuart Miles published on 29 November 2008

We know how you like to get a bargain, so that's why here at Pocket-lint we've teamed up with Shopping.com to bring you a price comparison site so you can find the best deals on the web without having to dig for them.

When we launched the new designed Pocket-lint in October we said we still had some treats for you and we are pleased to announce this is the latest one.

Not happy with the solution we've been able to offer in the past, we've overhauled the shopping pages on the site to give you quick access to the best deals around.

All you have to do is go to www.pocket-lint.co.uk/shop to see the latest most popular deals on the web.

Our shopping site is powered by the folk over at Shopping.com, one of the best in the business, and run independently from the editorial practices of the main site meaning they promise to get us - and therefore you - the best and latest deals on everything from TVs to digital cameras and much more.

So what are you waiting for? Get searching for that gadget you've wanted to spoil yourself with this Christmas. At least this way you might even have cash to spare to get your partner something. Well - we did say might.

Stuart and the Pocket-lint team
