A look back at the major launches of CES

by Amy-Mae Elliott published on 16 January 2009

Join Pocket-lint's Stuart Miles in Las Vegas as he takes a contemplative look back at recent headline news stories in the world of technology and gadgets.

Miles muses the major launches of CES. Will the Palm Pre be a success? Is Sony's Vaio P really a netbook? And - thanks LG, but do we really want a phone watch?
