Edifier launches Luna 5 iSpeaker

"Design excellence" with a 55 Watt output

by Amy-Mae Elliott published on 19 January 2009

Edifier has announced the launch of the latest addition to its lifestyle audio range, the Luna 5.

Described as a "statement of design excellence" the Luna 5 can playback music from iPods, iPhones, other MP3 players via aux input and boasts an FM tuner.

The Luna 5 features a three-way, five driver speaker system with a magnetically shielded 5.75 -inch woofer, two 2.75-inch midrange drivers, two 2.5-inch tweeters and delivers a total power output of 55 Watts.

The unit is controlled via six touch-sensitive buttons and a full function remote that includes iPod navigation.

The Luna 5 is available now from Micro Direct and in February from Play.com and Dabs for around £199.99.
