3 offers BlackBerry Bold

On £30 a month contracts

by Amy-Mae Elliott published on 29 April 2009

3 has announced it is to offer the BlackBerry Bold, the HSDPA-enabled smartphone from RIM with integrated GPS and Wi-Fi, as well as multimedia capabilities.

A little late to the Bold party - the phone has been available in the UK since August 2008 - 3 claims its multimedia services such as 3 on Demand, Books on the Go, and the 3MusicStore make it a must-have mobile.

The Blackberry Bold will be available for £30 a month with 500 any network minutes, unlimited texts, email, and Internet, including unlimited Windows Live Messenger usage.

The Bold will be on sale in 3Stores on high streets as well as online from 29 April 2009.
