## Win a Linksys by Cisco Media Hub

### Organise your digital media

by Ben Crompton published on 6 May 2009

Pocket-lint has teamed up with Linksys by Cisco to give our readers the chance of winning a Linksys by Cisco NMH305 Media Hub.

Launched at CES 2009 it's designed to simplify access to, and interaction with, digital content. The Media Hub gathers, organises, and presents all the digital video, photos and music that you have spread amongst various devices in your home in a single location.

Featuring an "easy to use" interface and 500GB hard drive you can not only access media in the home but throughout the world via a web browser.

The competition will be running for 2 weeks, so to be in with a chance of winning click through to the competition page via the link below and answer the simple question.
