by Amy-Mae Elliott published on 13 May 2009

Like the sound of Sony's new X-Series Walkman?  
A 3-inch OLED screen and Wi-Fi float your boat?

Then have a gander at the video above that sees  
Pocket-lint's Stuart Miles getting hands-on with  
the new device at its UK launch.

Miles offers a quick walk-through of the  
Walkman's features as well as the chance to see  
that screen, and the interface, in the flesh.
