## Carphone Warehouse launches SnappLife app store

Homescreen widgets for S60 and Windows Mobile handsets

by Duncan Geere published on 28 May 2009

The Carphone Warehouse has announced that it'll be the exclusive European distributor of SnappLife from Hiplogic.

SnappLife is a mobile service which provides a range of applications for the homescreen of Symbian S60 and Windows Mobile devices. Included are Sky News, Sports, Twitter, Weatherbug, and Finance apps.

Users can sign up for the service by heading to Carphone Warehouse stores, visiting [www.snapplife.com](http://www.snapplife.com), or by texting "snapp" to 64246. Developers can code for SnappLife, too, with instructions at [dev.hiplogic.com](http://dev.hiplogic.com).
