VIDEO: Tech Week in View - 26-06-09

The biggest stories of the week
dissected

by Stuart Miles published on 26 June 2009

This week I get feisty about T-Mobile's G1 touch, get dreaming about power options for my gadgets, and moan about whether or not we really need a UK top 40 chart. Plus there's why I think that we will all be downloading apps for our printers next year.

Press play to enjoy.
