Win a TomTom XL Live IQ Routes Europe

Just comment on a story for a chance to win

by Ben Crompton published on 3 July 2009

Pocket -lint has teamed up with TomTom to bring you the chance of winning this top-of-the-range satnav.

The rules of the competition are simple, you can enter as many times as you like by simply commenting on any story. It doesn't have to be in depth, detailed or technical, but it does have to be useful, helpful or funny.

You don't have to sign up to comment on the stories, we just ask for your name, location and email address - that does not show up online and is not passed on.

The TomTom device measures 123 x 80 x 18mm and features 4.3-inch touch display, the screen being bright and a convenient size enabling ease of use whilst driving.

Along with Live HD Traffic, now with added support for Europe, the TomTom XL Live has excellent route guidance and with the added MapShare feature, it allows for easy updating of maps within the TomTom community.

To be in with a chance of winning this top-notch effort just comment on any story during the month of July. At the end of the month the Pocket-lint team will take a look and choose what we believe is the best one.

Make sure you take a look at Pocket-lint's full review via the link below where it received a 9/10 score.
