## Gadget4All offers key-shaped flash drives

### Lock your data

by Amy-Mae Elliott published on 16 July 2009

A little less realistic than LaCie's recent key-themed offerings, Gadget4All is offering key-shaped flash drives.

Less realistic but more colourful, the devices are available in red, purple, blue, brown and black.

With a 4GB capacity, the tiny 6cm long storage devices are on sale now for \$22.
