VIDEO: Toshiba Satellite L500

"Quality and affordability"

by Amy-Mae Elliott published on 16 July 2009

Toshiba has announced more info on specs for its Satellite range of consumer laptops that will go on sale in the UK from late July.

All models are said to be energy efficient with an "Eco Utility Tool" for power saving options while the A500 and U500 models offer multi-touch controls on the trackpad.

There's more info in the official video above, and the run-down on the spec - in Toshiba's words - below.

Key features:

* The Satellite L500 offers a 15.6-inch Toshiba TruBrite display that provides a high definition resolution of 1366 x 768 pixels, while the L550 features a 17.3-inch TruBrite display with power-saving LED backlight technology, and a high definition resolution of 1600 x 900.

* The Satellite L500 and L550 models offer a choice of stylish designs, with each machine based on IMR technology.
