Daily Tech Deal: Pixmania offers discounts on camcorders

Money saving deals, offers and innovations

by Ben Crompton published on 17 July 2009

Pocket-lint has been covering a whole host of camcorder releases this week, so we thought it a good idea to point you the direction of some cut-price efforts available from Pixmania.

All the offers appear to be ending soon, with handy timers counting down presumably in order to persuade you to buy now and think about it later.

Most of the deals appear to be pretty competitive. You can get 9% off of the Sanyo Xacti digital movie HD2000, which comes with a 2.7-inch LCD screen, 10x optical zoom and the ability to shoot in 1080/60p. And a 20% discount can be found on the Flip Ultra 2 Mini camcorder, with 4GB of memory allowing you to record around 120 minutes of footage and the internal battery providing around 4 hours on a single charge.

These deals are available over the weekend with most of them finishing Sunday night, which will give you time to look through Pocket-lint's full reviews of the products mentioned before making your decision.
