Recycled Mac clocks for sale on Etsy

One-of-a-kind Apple-themed timepieces

by Amy-Mae Elliott published on 23 July 2009

Mac fans will enjoy these recycled Mac clocks over on Etsy from pixelthis.

"I love all things mechanical and taking things apart to see what makes them tick. I especially love old mechanical clocks and all those gears. This is my attempt at fusing the old and the new", says the clock's creator.

On sale from around \$60, if Macs aren't your thing, then there's also circuit boards, wheels and old records.
