Lexmark launches X7350 all-in-one printer

Lexmark has today introduced the Lexmark X7350 Complete Business Solution All-in-One printer.

by Stuart Miles published on 21 March 2006

Lexmark has today introduced the Lexmark X7350 Complete Business Solution All-in-One printer. The X7350 aims to offer photo printing capabilities along with the ability to print, scan, copy and fax functionality. The budget printer, costing £149.99 and available in April, will also allow users can print directly from their PC or a PictBridge-compatible digital camera. The printer can print at speeds of up to 25 pages per minute (ppm) black and 19 ppm colour, as well as an automatic document feeder capable of handling a maximum of 50 pages for hands-free faxing and copying. It also comes with Lexmark's Productivity Suite Software, allowing users to manage a variety of different print and electronic document formats, including creating and searching PDFs and scanning printed documents into editable text. The Lexmark X7350 is also network capable, with optional Ethernet and wireless network adapters to connect to an existing office network.
