## Samsung introduce DAB digital radio into new systems

by Stuart Miles published on 14 September 2004

Samsung, following hot on the heels of other electronics manufacturers, are adding DAB digital radio to its new range of home entertainment models. Models that will add digital radio functionality are the Home Cinema system - the HT-DS470, and the MM-ZJ8 and MM-ZJ9 micro systems. Digital Radio has had a tough time until recently with many manufacturers only seeing it as a solution for kitchen radios. Samsung's move alongside other companies such as Sony shows that the technology is starting to become adopted in the home. There are more than 140 different radio brands broadcasting digitally in the UK and Northern Ireland
