## Gionee S20 mobile runs Nintendo games emulator

Relive a little part of your gaming youth on your mobile

by Amy-Mae Elliott published on 12 June 2007

This is the Gionee S20 - a Chinese mobile phone recently launched in Taiwan.

It runs a built-in Nintendo gaming emulator so you can get some classic retro-gaming in a landscape stylee.

Aside from the gaming features, it is a slider phone with a 2 megapixel camera and it can like, make calls and stuff.
